This supplement dated 25 May 2021 (the “**Supplement N°1**”) constitutes a supplement for the purposes of Article 23 of Regulation (EU) 2017/1129, as amended from time to time (the “**Prospectus Regulation**”). The Supplement N°1 is supplemental to, forms part of, and must be read in conjunction with the base prospectus dated 22 December 2020 (the “**Base Prospectus**”) prepared in connection with the Warrant Programme (the “**Programme**”) established by KBC Bank NV, incorporated as a limited liability company under the laws of Belgium, with registered office at Havenlaan 2, 1080 Brussels and registered with the Crossroads Bank of Enterprises VAT BE0462.920.226 (Brussels) (the “**Issuer**”), for the purpose of giving information with regard to the issue of call warrants (*koopwarranten/warrants d’achat*) relating to an Underlying Share (as defined in the Base Prospectus) (the “**Warrants**”) under the Programme during a period of twelve (12) months after the date of the Base Prospectus. The Issuer accepts responsibility for the information contained in this Supplement N°1. The Issuer confirms that, to the best of its knowledge (having taken all reasonable care to ensure that such is the case) the information contained in this Supplement N°1 is in accordance with the facts and does not omit anything likely to affect the import of such information.

I. New information

1) Introduction

Coronavirus (COVID-19) pandemic

Since the date of the Base Prospectus and as regards recent developments, the coronavirus (COVID-19) pandemic and ensuing global health crisis have expanded and caused more uncertainty. This constitutes a significant information which makes necessary to amend the risk factor titled “*Coronavirus (COVID-19) pandemic (high risk)*” inserted in the Base Prospectus by Supplement N°1 and subsection “*Changes since the most recent published financial statements*” in section “*Financial information of the Issuer*” of the Base Prospectus, for the purpose of Article 23 of the Prospectus Regulation.

KBC Bank Annual Report 2020

On 1 April 2021, the Issuer published its annual report for the year 2020 in the document “*KBC Bank Annual Report 2020*”.

KBC Bank Ireland

On 16 April 2021, KBC Group NV published a joint press release with Bank of Ireland entitled “*KBC Bank Ireland enters into a Memorandum of Understanding with Bank of Ireland Group*”.

Annual General Meeting

On 28 April 2021, the Issuer held its Annual General Meeting which amongst other concerned the proposed changes to the composition of the Board of Directors.

Due to this new information the Base Prospectus is amended as described below.

2) **Risk factors**

In the section “*Risks relating to the Issuer and the KBC Bank Group*” on page 15 *et seq.* of the Base Prospectus, the subsection titled “*Coronavirus (COVID-19) pandemic (high risk)*” inserted in the Base Prospectus shall be amended and replaced as follows:

“*Coronavirus (COVID-19) pandemic (high risk)*”

Whilst the KBC Bank Group thoroughly assesses risks and underpins these assessments related to the Issuer and the KBC Bank Group, the worldwide outbreak of the coronavirus pandemic is an unprecedented event which has put this assessment and its underpinnings to the test. Whilst the KBC Bank Group as a whole was exposed to this reality readiness test, there have been four explicit areas: credit risk, liquidity risk, market risk and broader operational resilience.

The worldwide economic challenges resulting from this crisis undoubtedly have the largest impact on credit losses in general, including credit losses incurred by the KBC Bank Group, both now and in the years ahead. Such credit losses include, but may not be limited to, credit losses situated in our loan portfolio (please also refer to the risk factor entitled “Credit risk”).

In addition to credit risk in general, the coronavirus crisis will also have a negative impact on counterparty credit risk, as certain counterparties will be adversely impacted by this crisis, preventing them from fulfilling their financial obligations towards the KBC Bank Group.

Whilst naturally, the Issuer may also face potential losses stemming from financial instruments to which the Issuer is exposed via its trading and non-trading activities, this is currently not seen to be particularly higher as a direct consequence of the current coronavirus crisis. Please also refer to the risk factors entitled “Market risk in non-trading activities” and “Market risk in trading activities”.

Funding and liquidity risk also increase during a crisis as trust between financial institutions might decrease or disappear, which can influence the KBC Bank Group’s funding capabilities in the market as well as its liquidity position. As at the date of this Base Prospectus the liquidity position of the Group remains very solid. Please also refer to the risk factor entitled “Liquidity risk”.

Other risks are also impacted by the coronavirus crisis, such as operational risk, both within KBC and in third parties to which the KBC Bank Group has outsourced its activities. Operational risks are related to business continuity management, information security and IT risk. Please also refer to the risk factor entitled “Operational risks”.

The transition to new ways of working due to this crisis (e.g. remotely, from backup locations and home office) was well organised without major incidents. New information flows were established swiftly to provide management with the most update and relevant information.

The coronavirus pandemic has also led to regulatory developments in the jurisdictions in which the Issuer operates. Please also refer to the risk factor entitled “Regulatory developments”. Examples include the measures and regulations adopted by the Belgian Federal Government regarding the granting of payment deferrals, additional lines of credit and other types of financial relief provided by the Belgian financial sector. Payment deferrals, guarantee schemes and liquidity assistance measures were also adopted by the local governments in our other core countries, in close cooperation with the national regulator.

The coronavirus pandemic already had, and may continue to have, a negative impact on the profitability and performance of the Issuer as well as on the credit rating and more specifically the credit rating outlook of the KBC Bank Group (Please also refer to the risk factor entitled “Credit ratings” and the section entitled “Credit ratings” on pages 42 and 43 of this Base Prospectus for an overview of the KBC Bank Group’s current credit ratings).

Taking everything into account, it can be concluded that the KBC Bank Group withstood the test well in all areas. Also, its capital position remains very solid to this day.”

3) Administrative, Management and Supervisory Bodies

In the section 4.2 “Administrative, Management and Supervisory Bodies” on page 35 *et seq.* of the Base Prospectus, the table setting out the members of the Board of Directors therein will be replaced with the following:

4) Recent events

In the section “Recent events” on page 53 *et seq.* of the Base Prospectus, the following paragraph shall be introduced:

“16 April 2021: Memorandum of Understanding that could lead to a transaction in which Bank of Ireland undertakes to acquire virtually all of KBC Bank Ireland’s performing loan assets and liabilities. In addition, KBC Group is examining its options for divesting KBC Bank Ireland’s portfolio of non-performing mortgage loans. Successful completion of both transactions may ultimately result in withdrawal from the Irish market. See press release on www.kbc.com.”

In the section “Recent events” on page 53 *et seq.* of the Base Prospectus, the subsection “Coronavirus (COVID-19) pandemic” shall be amended and replaced as follows:

“Since December 2019, a significant increase of cases of pneumonia associated with the coronavirus (COVID-19) has been reported worldwide. Initially reported in the province of Hubei in the People’s

Republic of China, it has spread across other countries, resulting in reported infections and deaths in numerous countries and leading to a global pandemic.

In addition to the human suffering caused by the pandemic itself, the coronavirus crisis has also triggered unprecedented economic consequences. It has become clear that the coronavirus crisis has had and will continue to have a significant impact for the foreseeable future, especially in particular sectors. The long-term impact on the economy will also depend on the occurrence and intensity of new outbreaks of the coronavirus, both as at the date of this Base Prospectus as in the foreseeable future.

As the coronavirus pandemic and the ensuing global health crisis have led to a massive impact on economic activity, the Belgian Federal Government, the NBB and Febelfin (the Belgian banking federation) reached an agreement at the end of March 2020 on a number of measures for banks. As set out in a series of charters on the payment deferral for corporate credits and mortgage credits, the Belgian financial sector committed to providing i) viable (i.e., if there were no payment arrears on 1 September 2020 or payment arrears of less than 30 days on 30 September 2020) non-financial companies, SMEs, self-employed persons and non-profit organisations with a permanent establishment in Belgium and ii) certain individual residential mortgage borrowers, and which have payment problems due to the coronavirus crisis with a temporary deferment of payment until 30 June 2021 without administrative charge. Borrowers are required to evidence the fact that they are in distress because of the coronavirus crisis and request their bank for a postponement of payment. The maximum total deferral period under the respective charters is nine months. Pursuant to the Belgian Royal Decree of 14 April 2020 granting a State guarantee for certain credits in the combat against the consequences of the corona virus, qualifying short-term credits granted by credit institutions to viable non-financial companies could benefit from a State guarantee. The regime extends to new credits granted by either Belgian credit institutions or Belgian branches of foreign credit institutions between 1 April 2020 and 30 September 2020 with a maturity of up to twelve months. Only companies which are deemed viable (i.e., which do not have pre-existing financial difficulties) could benefit from the State guarantee. Furthermore, the Royal Decree requires that the companies are registered in the Belgian Crossroads Bank for Enterprises, covering both Belgian companies as well as foreign companies which have activities in Belgium. In addition, Belgium's four largest banks (Belfius, BNP Paribas Fortis, ING and KBC Bank), as well as certain other banks, agreed on measures to support companies facing difficulties due to the coronavirus crisis, such as the granting of extensions for the repayment of interest and/or capital and the granting of additional credit. Each bank will act on a case-by-case basis and will invite its client companies to contact it to find the appropriate solution.

The measures taken by the Belgian federal authorities are part of a series of measures taken in countries all over Europe and are also supported by the response of the ECB in reaction to the coronavirus pandemic. These are meant to protect the economy and the most vulnerable sectors and individuals. The economic impact of the coronavirus pandemic on the Belgian economy is still uncertain.

As stated in the section "Note 1.4: Impact of the coronavirus crisis" on pages 121 to 126 of the Issuer's annual report for the financial year ended 31 December 2020 which is incorporated by reference into this Base Prospectus as set out in Section "Documents incorporated by reference" on pages 34 and following, impairment on loans totalling 1 068 million euros was recognised for financial year 2020. It comprised collective impairment charges related to the coronavirus crisis for an amount of 783 million euros (111 million euros captured by Expected Credit Loss (ECL) models, and a management overlay of 672 million euros) and other impairment charges for an amount of 285 million euros. Including the total coronavirus-related ECL, the credit cost ratio amounted to 0.60% in 2020. Disregarding the collective coronavirus-related ECL, it would have been 0.16%. In 2019,

the credit cost ratio amounted to 0.12%. More information on the financial impact of the coronavirus pandemic on the KBC Bank Group, as well as a status overview of the different government and sector measures in each of the KBC Bank Group's core countries, please refer to pages 121 to 126 of the Issuer's annual report for the financial year ended 31 December 2020.

Although it is not possible at this stage to make a comprehensive and definitive assessment of the financial impact of the coronavirus pandemic, the KBC Bank Group continues to closely monitor the situation on a daily basis."
